Head protection

Helmet system – Husqvarna

- Helmet with replaceable liner attached at six points, fiber sweatband, air vents and cut-outs over ears to accommodate hearing protectors. Resistant to UV light.
- Visor with rectangular mesh gives excellent visibility and water run-off. Visor and visor holder available separately.
- Hearing protectors can be adjusted vertically and sideways. Patented design of spring and cushion provide excellent noise reduction despite low pressure.

First aid / fire

Chain saw protective pants and chaps contain material designed to reduce the risk or severity of an injury, and give the operator extra reaction time when contact is made by a moving chain. The cut retardant material is designed to "pull" apart and clog up the sprocket system of the chain saw and slow or stop the chain from rotating depending on the speed of the chain, length and angle of contact and the power of the saw. Protective pants and chaps should never be considered safer than proper and correct chain saw handling safety procedures.

All Husqvarna Canadian protective chaps and pants are classified in accordance with the BNQ/cUL 3000 FPM minimum Test Method for Measurement of Cut Resistance, or they meet the WCB 1-1997 standards which stipulate a 3900 FPM minimum threshold stopping speed.

Specialty sizing can be ordered for Protective Pants and Bibs, however there will be a \$25.00 fee assessed for special handling. Please allow 6 to 8 weeks for delivery. Special order pants and bibs can not be returned.

First Aid Kit

- Alberta #4 First aid kit for chain saw users
- Soft nylon case, and belt loop

Safety apparel warranty

Protective Apparel Warranty

Protective apparel warranty is 90 days from the date of the customer's original purchase for defects in material and workmanship. Normal wear, tear, or abuse is not covered under warranty. Product must be returned with claim form to nearest Husqvarna Distribution center in Edmonton- Mississauga- Lachute or Moncton. All care and maintenance instructions must be followed as stated on the care label of each garment.

Protective Pants and Chaps

All Husqvarna Canadian protective chaps and pants are classified in accordance with the BNQ/cUL 3000 FPM minimum Test Method for Measurement of Cut Resistance, or they meet the WCB 1-1997 standards which stipulate a 3900 FPM minimum threshold stopping speed.

Boot Warranty

All boots have a 90 day warranty from the date of the customer's original purchase for defects in material and workmanship. Normal wear, tear, or abuse are not covered under warranty. The fit of the boot is not covered under warranty. Boots will not be accepted for return if they show any signs of outside wear. Please have your customer wear the boots inside to make sure they fit.

Boot Care Instructions

Boots need to be cleaned, conditioned, and water-proofed in order to get maximum wear life. Conditioning and waterproofing boots will keep the leather from cracking and splitting, extending the life of the boot. Follow the manufacturers care instructions to get the maximum wear life.

Chain saw accessories

Cutting trolley

- New, compact cutting cart for the Husqvarna K 750. Quick mounting, central height adjustment and lateral adjustment make the cart easy to use and simplifies cutting in straight or curved lines. The handles easily adjusted and rear wheels adjust laterally, so you can find the ideal working posture. Easy to mount. Depth control accessible from working position.
- The quick mounts make it easy to install the cutters on the trolley.
- Efficient control of cutting depth facilitates adjustment and return to previous setting.
- Simple lateral adjustment enables cutting in straight or curved lines.
- Wheels are laterally adjustable, and allow cutting close to walls and kerbs.
- Easy to fold up and transport.

SKU

965 19 16-01 Kv750 Trolley, W/Water Tank

Air filter oil

- Use this oil on all Husqvarna power cutter for warranty purpose

T35 Professional tap advance – 300 series trimmers

Exclusively designed by Husqvarna, the T35 Professional Tap Advance trimmer head features an easy to reload spool that comes off with the cap, eliminating the need to turn the trimmer upside down to reload the line. The spool has a split design which reduces tangling and line welding, and has arrows to show the correct directional winding of the line to eliminate guesswork. The spool has two key slots to lock the trimmer line in and keep it from unwrapping while putting the cap back on the trimmer head. The T35 holds .065”, .080”, .095”, or .105” trimmer line and has a capacity of 28 feet of .095” gauge line, one of the best in the industry and comes pre-wound with .095” TitaniumForce™ trimmer line.

SKU	
537 38 81-01	10mm – Universal T35 Tap Trimmer Advance Head - Contains arbor kit to fit Redmax, Shindaiwa, Stihl and Poulan models also. Clamshell Package.

R Harness

- R Harness is the same design as the RX, but the breast plate is secured with a pin..

SKU

537 27 57-01 Duo-Bal Harness

Trio-Balance Harness

- Optimal weight distribution. The weight is distributed and balanced efficiently between the shoulders, hips, chest and back. The wide padded shoulder straps also spread the load over large areas which reduces the load on the shoulders. A shock-absorbing hip pad with a traveling connection means that the machine can be maneuvered with fewer body movements. The hip pad also has a safety release within easy reach, so that the cutter can be detached with a simple action.

SKU

504 04 52-01 Harness Trio Balance

Balance XT harness

- The Balance XT Harness has a body shaped back plate that is adjustable in three positions. Pivoting shoulder straps follows the movements of the shoulders and gives an improved weight distribution. Wide, padded, and body-hugging straps make the harness comfortable to wear and reduce stress on the upper body and shoulders. The straps have reflex material to make work safer in dim conditions. Easy adjustment in the front can be used in two different positions which reduce the pressure on the chest and the lungs, also making the harness much more comfortable for women to wear. A wide and padded hip belt helps to reduce strain on the hips. On the hip belt, easy to reach, a pocket is placed to hold a mobile or other tool. Shock absorbing hip pad with a traveling connection for grass- or forest position. An easy and effective quick release on the hip pad makes the work safer. The floating pad system reduces strain on the back and requires less energy when working.

SKU

505 20 42-01 Harness Balance XT

Balance Flex harness

- To be used with all kinds of pole products. The product is attached to the harness by open hooks, making it easy to use and quick to start/stop. The Balance Flex Harness evens the load distribution over both shoulders due to the padded shoulder straps, which is a support when using the product in different angles and heights. A lifting force is used to help hold and lift the product. The harness gives good support when using pole products for different kinds of work, high or low, far away or close, which results in better ergonomics

Common accessories

Granberg Alaskan Mark III Mill

- This advanced lumber mill was designed for versatile heavy-duty use.
- Available in three sizes (24", 30", 36") the Alaskan MKIII readily converts logs into beautiful slabs of perfectly dimensioned lumber in thicknesses from ¾" to 12".
- Frame design assures precision milling and easy installation.
- No bar drilling is necessary.
- The MKIII clamps on the chain saw bar and will adjust to accommodate different bar sizes.
- Adjusts for board thickness and width are made in seconds.
- Recommended for use on saws 80cc and over.

Part No.	
531 30 65-22	G776-24 Alaskan MKIII w/ 24" rails.
531 30 65-23	G776-30 Alaskan MKIII w/ 30" rails.
531 30 65-01	G776-36 Alaskan MKIII w/ 36" rails.
531 30 47-87	Basic Mark III Frame
531 30 47-90	24" Handle and rail set
531 30 47-91	30" Handle and rail set
531 30 47-92	36" Handle and rail set
531 30 90-91	V-Skid
531 30 79-84	Auxiliary oiler kit (G801A)
531 30 89-58	Ring for grip (G970)
531 30 89-82	3/8-16 x 1 socket head cap screw
531 30 89-87	5/16 U-bolt
531 30 89-88	Coupling nut 5/16-18
531 30 89-89	Post clamp
531 30 90-62	End bracket

Granberg mini mill

- This compact attachment combined with a chain saw converts the two tools into a single precision lumber-making mill.
- With the Mini-Mill anyone can make smooth ready to use dimensioned lumber from logs.
- Lumber can be milled in any desired thickness, 1 x 6", 2 x 4" etc.
- Comes complete with 12 feet of metal V-shaped guide rail.

Part No.	
531 30 47-78	G555-B Mini-Mill w/ 12' guide rail
531 30 47-79	G590-2 2' V-shaped guide rail

Alaskan small log mill attachment

- G777 Perfect for the homeowner, woodworker or carpenter.
- This mill is compact, lightweight and easy to use and bolts to your saw bar with no drilling.
- Add your chain saw and start making lumber!
- Maximum 24" bar length

Part No.	
531 30 47-88	Mini Mill

Log Wizard debarking tool

- This chain saw attachment turns your chain saw into an amazing tool to debark logs in less time than you ever thought possible.
- Perfect for log home builders, portable sawmill operators, farmers, ranchers and more.
- Simple construction allows for easy mounting.
- Uses standard 3 1/4 in. planer blades.

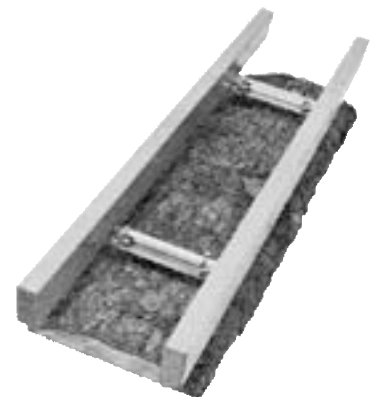

SKU	
531 30 79-72	Log Wizard Cpl 3 1/4" Blade
531 30 84-41	Log Master 11/4" Blade
531 30 84-44	Sprocket 3/8 - 7 (450060)
531 30 84-45	Spline Adaptor (450080)
531 30 84-48	Planer Blades (451100)

Granberg slabbing rails

- G850 Contains 2 brackets and mounting hardware
- A set of slabbing rail brackets helps make the ideal guide for the mill to follow. Simply bolt the metal spreader brackets between two straight 2x4's every four or five feet and then mount the guide to the log.

SKU	
531 30 47-97	Slab Rail Bracket

Granberg helper handles

- G975 Helper handle with idler roller bearing. Heavy die cast aluminum

SKU	
531 30 48-01	Helper Handle W/Roller
